

# Invisible Government Road To Communism

Walter Rostow and Jerome Wiesner were sent to Moscow to talk with Khrushchev right after the 1960 election. This was unusual for Kennedy to allow these two "so called" Jews to represent him two months before he became President and on such a dynamic mission.

Apparently the marxist Jews who maneuvered Kennedy's election were crowding him to allow them to take over direction of our government; they could not wait until Kennedy took office. It is believed in Washington there is a secret understanding with Khrushchev as a result of the visit by these two Harvard Jews.

Rostow (a member of the Council on Foreign Relations) went into the White House with Kennedy and began giving orders for foreign activity. While Gen. Maxwell Taylor was with Rostow in South Viet Nam, Taylor told him to shut his big mouth. Two months later Rostow was promoted to Chairman of the State Department's Policy Planning Council.

Rostow has produced a lengthy document on foreign policy which has shaken Congress to a point that a number of Senators and Congressmen have demanded he resign; but Rostow, knowing he has the backing of the marxist Jew machine (including Americans for Democratic Action) is defying such Senators as Dirksen of Illinois. Rostow refuses to allow our Senators to see this foreign policy plan. He defies the Senate Foreign Relations Committee; one more evidence that the White House and the State Department run our Government. In this refusal he is backed by Dean Rusk, member of Council on Foreign Relations and Secretary of State. The reason for alarm is the tone of the speeches Rostow is making before different groups, especially the military, and a 568 page book "UNITED STATES IN THE WORLD AREA" by Rostow in which he virtually advocates sacking the U. S. to Khrushchev.

Rostow's policy is to give in to communism every way possible without letting our people catch on.

**Increase recognition of communist East Germany.**

**Guarantee communists we will not use atomic weapons in event we are attacked.**

**Promise that we will not strike first. Convince Khrushchev we will do nothing to deliver the Captive Nations.**

**That we will push Chiang Kai-shek and Formosa under communist China.**

**That we will put our Army, Navy, and Air Force under a World Police Force.**

Regardless of how dangerous Rostow is, Kennedy knows he cannot fire him. He had the test with Chester Bowles, a Jewish stooge, who made remarks regarding the invasion of Cuba that were very embarrassing to Kennedy. Robert Kennedy cursed Bowles, and Bowles let President Kennedy know he would go to Americans for Democratic Action, hence Bowles was just transferred to another post.

Such is the situation in the State Department which has been taking over more power since F.D.R.'s days and has been breaking down governments over the world to make way for communism.

## LASKI, JFK'S TEACHER

"I know Laski," Hon. Joseph P. Kennedy, former United States Ambassador to Great Britain, told the Economic Club of Chicago on December 5, 1945. "He is an arrogant apostle of anarchy who has spent his time shuttling between Moscow, London, and New Haven peddling his particular brand of Socialism."

Senator Dirksen gives Rostow a piece of his mind.

## ABOUT FACE AND FORWARD

A letter to the President of the United States, John F. Kennedy

By Rev. Tibor Domotor

Central President of the International Hungarian Freedom Fighters

Dear Mister President:

I write you these lines on the fifth anniversary of the crushing of the Hungarian freedom fight by the communists. I am writing at a time when world events seem to have slipped from the control of the leaders of mankind, and when humanity seems to stand at the threshold of a world catastrophe, at a time when, by the light of an "accidentally" oversized Soviet terror-bomb it has become apparent, that we must act quickly against communism, if we do not wish to be destroyed.

We Hungarians experienced the same tragedy five years ago that is now threatening to engulf the entire world. We proved five years ago, that there can be no peaceful coexistence with communism. In the five years that have elapsed since that time, however, it seems that the world has forgotten the Hungarian lesson. What is the reason for this fact?

What is the reason for the fact that Communism, hated by all of humanity, is still gaining victory after victory in every sector of the globe?

The reason is simple and clear: the United States has been steadily retreating before the communist onslaught starting with Franklin D. Roosevelt. Ever since the time when the United States recognized the red murderers as equals, everything has been going the way of the communists. It was the constantly retreating, Rooseveltian policy of the United States that replaced the yoke of slavery on the Russian people in 1945.

It was the ever retreating, Rooseveltian policy of the United States that handed Eastern Europe and China over to the reds, after the Second World War.

It was as a result of this constantly retreating Rooseveltian policy of the United States that the anti-communist intelligentsia of Eastern Europe were exterminated, having been handed over as "NAZIS" to the red execution squads.

It was this policy that led to the United Nations existence on American soil, an organization that has been faithfully fulfilling its task as spokesman of red propaganda in the United States.

It was this policy that led to the murder of General Patton, the suicide of Forrestal,

the defeat and firing of MacArthur, the moral and physical liquidation of McCarthy, and the removal of General Walker from his post!

This policy gave away the secret of the atomic bomb to the Reds and gave them enough time to produce and test such bombs!

This policy saved the Reds from starvation, every time internal strife was ready to sweep the Soviet system from existence, even in Russia herself!

This policy permitted the Reds to drown in blood the German, Polish, Hungarian, Tibetan, Chinese and Russian revolutions!

This policy makes possible the role of the Cyrus Eatons and other plotters and makes the work of anti-communist leaders and organizations almost impossible!

Mr. President, during your campaign for election, you pledged you would take up the banner where F. D. R. laid it down. That is what worries us!

Mister President, it is time to do an about-face. It is time to save America from communism. It is time to rid the United States of the Rooseveltian spirit!

We believe, that you have good intentions, but you are surrounded by bad advisors. There are many examples in history, in which well-meaning leaders and ill-willed advisers led their nation into catastrophe!

You know, from your war experience, what it feels like when the enemy sinks the vessel you command from under you.

The communists are today trying to sink the United States which is under your command. They are trying to drown America's freedom in the red sea of co-existence, without war!

You have probably often wondered, why your plans, ideas and orders are not successful. The American people, too, are wondering, why there is such a great gap between your heroic speeches and your unsuccessful actions!

Mister President, one cannot defeat the enemy by retreating before him! You cannot defeat communism with Rooseveltian advisors! The strength of the Reds is not in their nuclear bombs, but in the weakness and constant retreat of the peoples of the free world. With millions of anti-communists behind him, Khrushchev will not start—cannot start—a war against the world. He wants to reach world-conquest with American help! The Reds have to be destroyed! If they are not, they will destroy America and America's freedom.

Mister President, never before in the course of the world's history has one man had so much power in his hand as you have today. Use this power! Announce a policy for bringing freedom into the world! With at least as much courage with which the communists have announced the communization of the world! Help in all possible ways the peoples in communist slavery in their fight for liberty! Send at least as much arms, ammunition and propaganda material behind the Iron curtain as the communists do to Laos, Cuba, Indonesia, Congo and the rest of the world, to help their allies!

Open a diplomatic war on the Soviets! Let America throw out the spies and agitators who are here under the pretense of being diplomats!

Open an economic war on the Soviets! Let not business interest and the Rooseveltian spirit be the guiding factors of American policy, but the holy cause of ridding humanity of communism!

Mister President, not long ago you said we do not wish to be either red or dead. This is true. But this saying sounds too much like the slogan of peaceful coexistence, which the communists preach. One cannot co-exist peacefully with the Reds! History has proved this!

It has been proved through the mass murder of Russian priests, officials, soldiers, peasants, factory workers and millionaires, just as it has been proved through the liquidation of the best sons of the Latvian, Lithuanian, Estonian, Finnish, Polish, German, Hungarian, Bulgarian, Chinese, Korean, Vietnamese and Cuban nations!
